Re: Greeley Area Chamber support for City Sales and Use Tax Measure November 3, 2026, Ballot Measure

Dear Mayor Hall and esteemed Council Members,

On behalf of the Greeley Area Chamber of Commerce Board of Directors, we support Ballot Measure 2F because it creates a dedicated funding source for the City's existing capital commitments. This preserves current revenues for streets, facilities and deferred maintenance, the infrastructure that supports economic development, long-term investment, and job growth in Greeley.

Our interest is straightforward: a business community thrives when its city can invest confidently in the infrastructure that supports commerce and job creation. Growing cities face a choice, to invest ahead of growth or fall behind it. Greeley remains one of the fastest-growing communities in Northern Colorado, and that growth puts real pressure on the streets and public facilities that businesses and residents rely on every day. Keeping pace with that demand is essential to our capacity to compete for jobs and investment. This measure is about keeping Greeley and our business climate economically competitive for future growth.

No business organization takes a tax increase lightly, and tax climate will always be a priority for our members. The city's existing capital commitments remain whether this measure passes. A stable, voter-approved revenue source helps protect the City's fiscal standing and can lower long-term borrowing costs, savings that benefit taxpayers and businesses alike. Rejecting this funding does not eliminate those obligations; it only makes them more expensive to carry.

Greeley's success has always been built by those who invested in its future. This is no exception; a stronger, more competitive Greeley will allow us to leverage city resources to meet demand and remain competitive. We encourage our members and the community to support it as an investment in Greeley's future for generations who will call it home.

Sincerely,
